

# Reza Toosi – Senior Full-Stack Engineer (TypeScript / Python)

Email: reza.toosi@gmail.com

LinkedIn: <https://www.linkedin.com/in/khoshghalb>

Istanbul, Türkiye | Open to Remote (CET/EST overlap) | Willing to Relocate

## Summary

Full-Stack Developer with 10+ years designing, building and scaling SaaS & health-tech products. Obsessed with clean architecture, measurable performance gains, and reliability at scale. Solve hard problems end-to-end — from architecture to delivery — with business impact.

## Core Strengths

- **Backend:** Python (Django, Flask), TypeScript/Node.js (Nest.js), REST APIs, JWT, RBAC, Microservices
- **Frontend & Mobile:** React.js, Redux, Responsive UI, Accessibility, Performance
- **Data & Infra:** PostgreSQL, MongoDB, MySQL, MSSQL, Redis, RabbitMQ, Docker, Linux, AWS
- **Engineering Practices:** System design, performance profiling, automated testing (unit/e2e), code review standards, CI/CD (GitHub Actions), observability (logs/metrics)

## Selected Highlights

- **Online Therapy Platform:** Designed and launched a web and mobile system with integrated VoIP, chat, and payouts. Improved therapist engagement by 30% and achieved 99.9% uptime.
- **Construction Data Platform:** Optimized queries and caching, reducing infrastructure cost by 25% and API latency by 30%.
- **Ariana Digital Agency:** Delivered optimized CMS and CRM features for 200+ client sites, improving load speed and uptime (99.9%) through build automation and performance tuning.
- **CI/CD and Testing Standards:** Implemented automated pipelines and testing, reducing deployment time from 60 minutes to 5 minutes and minimizing regressions.

## Professional Experience

### Senior Full-Stack Engineer — Moshaver724 (Online Therapy Platform)

Jan 2023 – Present

- Architected a secure multi-role platform (client, therapist, admin) with role-based access control and wallet/payouts, improving reliability to 99.9% uptime.
- Built backend APIs using Nest.js with MongoDB, Redis, and RabbitMQ for scalability and reliability, increased therapist engagement by 30%.
- Delivered React.js admin panel and React Native mobile app with an accessible and responsive interface.
- Implemented CI/CD pipelines and end-to-end testing with Jest, reducing deployment time from 60 minutes to 5 minutes.

- Tech stack: TypeScript, Nest.js, React, React Native, Redux, Redis, RabbitMQ, MongoDB, Docker, AWS, Jest

### **Senior Full-Stack Engineer — SakhtYaar (Construction Data Platform)**

Mar 2021– Dec 2022

- Developed scalable systems for collecting and managing construction and contractor data.
- Optimized data ingestion and reporting flows, reducing maintenance overhead by 25% and API latency by 30%.
- Delivered Django backend and React or React Native clients with automated testing and deployment pipelines.
- Collaborated with stakeholders to enhance UX and increase user engagement.
- Tech stack: Python, Django, PostgreSQL, React.js, React Native, Docker, Git

### **Senior Full-Stack Developer — Ariana Digital Agency**

Mar 2017 – Feb 2021

- Co-developed an online accounting and inventory SaaS platform for SMEs, improving reporting speed by 40% and system reliability.
- Delivered custom CMS and CRM features powering 200+ client sites, using build and optimization tools such as Grunt, asset minification, and caching to boost load speed and reduce server load, achieving 99.9% uptime.
- Implemented a Django and React-based CRM for hosting providers, improving support response time.
- Tech stack: PHP, MySQL, C#.NET, MSSQL, JavaScript, Python, Django, React.js

### **Junior Full-Stack Developer — Keyhan IT and Software Solutions**

Jun 2014 – Mar 2017

- Contributed to a national business registry portal by implementing licensing workflows and analytics dashboards.
- Tech stack: C#.NET, MSSQL, HTML, JavaScript, jQuery, CSS

### **Junior Web Developer — Toranj Rayaneh Jam Co.**

Feb 2012 – Mar 2014

- Built and customized WordPress themes and CMS modules for corporate clients.
- Tech stack: PHP, MySQL, HTML, CSS, JavaScript, jQuery

## **Education**

**B.Sc. in Computer Software Engineering —** Khavaran Institute of Higher Education

**A.Sc. in Computer Software Engineering —** University of Applied Science and Technology
